PROFESSIONAL SUMMARY

Motivated and detail-oriented B.Tech Computer Science student with hands-on experience in building full-stack MERN applications and AI-powered web platforms. Skilled in React.js, Node.js, Express.js, and MongoDB, with a strong focus on scalable web development, REST APIs, and user-centric design. Passionate about developing real-world software solutions and continuously learning modern web technologies.

EDUCATION

B.Tech in Computer Science Engineering | Kolhapur Institute of Technology 2024 – 2027
CGPA: 7.6 / 10.0

12th Grade — SRM Welkin Higher Secondary School, Sopore 83%

10th Grade — SRM Welkin Higher Secondary School, Sopore 98%

TECHNICAL SKILLS

Languages: C++, C, Python, Java, JavaScript

Web & Frameworks: React.js, Node.js, Express.js, MongoDB, RestAPI

Tools & Platforms: Git, GitHub, Linux, Tableau, PowerBI, PostMan, Docker

PROJECTS

Cine News | AI-Powered News Verification Platform 2026

- Engineered an AI-driven news aggregation platform using Hugging Face NLP models to authenticate source credibility and detect fake news, reducing misinformation exposure.
- Integrated domain-reputation analysis and ML-based classification pipeline to reliably distinguish trustworthy vs. misleading articles in real time.

FARM2Market | AI-Enabled Agri-Commerce Platform 2025

- Built a marketplace connecting farmers directly to consumers, eliminating middlemen, with an ML-based fruit quality checker and dynamic price-prediction model for fair crop pricing.
- Deployed image-analysis pipeline to assess produce freshness and grade, improving buyer confidence and reducing post-harvest waste.

Movie Suggest | AI Movie Recommendation System 2025

- Architected a content-based filtering recommendation engine delivering personalized movie suggestions, integrated with social features: friend chat, bookmarking, sharing, and star ratings.
- Built on a React front-end and Node.js/MongoDB back-end, supporting scalable user preference management and real-time interaction.

Incredible India | Interactive Cultural Showcase Website 2024

- Developed a state-wise interactive web portal highlighting cultures, cuisines, and landmarks across 28+ Indian states, with travel-cost estimators and best-season guides.
- Delivered a mobile-responsive, visually rich UI praised for aesthetic quality, intuitive navigation, and depth of destination information.

ACHIEVEMENTS

Solved 150+ Data Structures & Algorithms problems on LeetCode
